## About Carus

Carus is totally focused on the passenger shipping industry providing advanced reservations, onboard and port solutions that are constantly evolving to meet the ever-changing operational demands of our clients.

For over a decade Carus has been serving a growing client base which includes operators throughout the Baltic, mainland Europe, the United Kingdom, the United States, Africa and Australia. Carus clients cover every aspect of the passenger vessel industry and operate virtually every type of vessel proving the versatility and flexibility of our reservation and onboard solutions. The Carus systems are tried and tested solutions that provide the 24/7 reliability required of mission critical applications especially when delivered via our managed services.
