The future is Ferries!
**Carus —Platinum
sponsor** at the 45th
Annual Interferry
Conference

Carus has been at the fore for another year as **Platinum Sponsor of the 45th Annual Interferry Conference**. This year the conference returned to its traditional face-to-face format, and took place in the capital of Cantabria, Santander, in northern Spain.

A conference that has produced important figures, with a total of almost **300 delegates, from 28 countries**, with a high percentage of ferry operators and suppliers of the maritime industry.

So we have returned with great force, to say that **The Future is Ferries... and Carus ;)**

The Carus Team at Interferry —Jose Rodríguez, Anders Rundberg and John Bertell, kicking off the conference. Ahead of the official conference schedule is the always popular Interferry golf tournament and the welcome drinks reception.

The conference sessions are preceded by an informal round of meetings and catching up with old friends and colleagues from the industry. The Carus team takes the opportunity to hold some internal meetings, as well as scheduled work lunches and dinners. As members of the Interferry Board, the usual Board of Directors dinner takes place on Saturday night.

On Sunday the Interferry golf tournament was held to compete for the Carus Cup Trophy, this year held at the

famous Real Golf de Predreña, home of Seve Ballesteros.

Carus welcomed conference delegates, and their clients, at the welcome drinks which took place in the piano lounge and on the terrace of the Hotel Real de Santander. There was a large attendance of over 80 friends who shared their concerns and joys with us before starting the official Interferry agenda, with the Sunday evening welcome reception at The Palace of La Magdalena.

Carus Drinks Reception

Hotel Real
Santander

Anders Rundberg, Jose Rodríguez and John Bertell, prepare to receive by Carus the delegates of the 45th annual Interferry conference, in the halls and terrace of the Hotel Real Santander, at their traditional drinks reception.

45th Annual Interferry Conference —The Future is Ferries. Santander, Spain. October 2-6, 2021.

Back by popular demand, Interferry recalled the eleven senior executives participating on the two Ferry Leaders Panels during the Santander conference. The panels, which wrapped up each day of the October 4 and 5 Speakers Program, provided an engaging and conversational perspective on all facets of the global ferry industry.

Interferry CEO Mike Corrigan, who moderated the sessions, asked the participants to share their perspectives on the

conference's many topics including: the push towards zero emissions, building sustainable ferries, transformational technologies, ferry market research findings, mitigating cybercrime, innovations in the customer journey, and safety.

Questions from the audience were also encouraged through the conference App's innovative Q&A feature that allowed for real-time text questions submitted to the panel.

Sessions of the conference in the picture above, and in the lower one, Carus booth with our cosponsors and friends from DNV, Maite Pisabarro —Sales Support at DNV and José Allona —Business Development Manager at DNV Spain.
